Siliguri is a city located in the Darjeeling district of West Bengal, India. It lies in the foothills of the Eastern Himalayas and is strategically positioned as a key gateway to the northeastern part of India, Bhutan, Nepal, and Bangladesh. Here are some key points about Siliguri.

Tourism:•

- Siliguri itself is a starting point for many tourists who visit Darjeeling, Kalimpong, and other hill stations in West Bengal and Sikkim. • The Mahananda Wildlife Sanctuary and Siliguri Corridor (also called the Chicken's Neck) are other points of interest for nature and wildlife enthusiasts.
- The city's proximity to the Dooars (a region known for its forests and wildlife sanctuaries) and Kurseong (another hill station) makes it a convenient base for exploring these areas.

Climate:•

- Siliguri experiences a tropical climate, with hot summers and moderate winters. The weather is generally pleasant due to its location at the foothills of the Himalayas, although it can get quite humid during the monsoon season.

Transport Connectivity:•

- Air: The nearest airport is the Bagdogra Airport, about 12 kilometers from Siliguri, which connects the region to major cities in India.
- Rail: Siliguri Junction is a major railway station with connections to various parts of India, including Kolkata, New Delhi, and Guwahati.
- Road: Siliguri is connected by roads to several important destinations, including Darjeeling, Gangtok, and major cities of the northeastern region.
